

Schedule of Well-Child Care Visits

Visits can include physical measurements, patient history, sensory screenings, behavioral assessments, and planned procedures (immunizations, screenings and other tests) at the following suggested intervals:

- 3 to 5 days
- 1 month
- 2 months
- 4 months
- 6 months
- 9 months
- 12 months
- 15 months
- 18 months
- 24 months
- 30 months
- 3 years
- 4 years
- And once every year thereafter for an annual health supervision visit that includes a physical exam as well as a developmental, behavioral, and learning assessment.
